What is 'My Closet'?
My Closet is an online wardrobe app that if you input pictures of your clothes, it will automatically choose the best outfit for you to wear tomorrow.
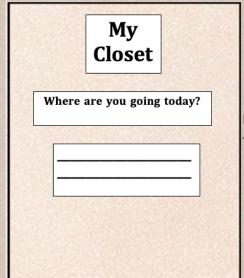

So, how does it work? First, it checks what clothes are available tomorrow. Then, it checks the weather report for tomorrow, and chooses the best clothes to fit the weather. As an added bonus, My Closet will make your outfit as stylish as possible, so you don't have to worry about looking terrible.

Why do you need it? My Closet will help people who take a long time in the morning to choose what they will wear today. My Closet works very fast, cutting down that time to just how long it takes to open the app. Also, My Closet helps with people who wear clothes without knowing the weather, and in turn spending a miserable day because you chose the wrong clothes.

My Closet

The perfect outfit chooser, by Jason and Alex
