WHY DID I SELECT THIS ACHIEVEMENT?

I selected this dance assignment because I think it really shows my ability to work in group. This assignment was very fun and joyable.

HOW DOES IT REPRESENT MY GROWTH?

I had done many dance assignments before I'm going to this school and I would say I did not perform well in front of people as I performed this dance assignment. I was performing while looking at the ground because I was not brave enough to look at the audience. This assignments displays my growth in confidence, dance abilities and group work ability.

WHAT WERE SOME CHALLENGES THAT I FACED?

There were many challenges that I faced throughout this assignment. One of the challenges was choreographed our own set of dance moves. We discussed many times before coming with the final dance moves. Getting acquainted with my group mates was one of the challenges as well.

Winter Market Marketing Project

WHY DID I SELECT THIS ACHIEVEMENT?

I selected this achievement not only because it was an interesting project, it was also very realistic when we could actually engage in the selling and marketing activities.

HOW DOES IT REPRESENT MY GROWTH?

It represented my growth very clearly. It displayed how I worked with my group mates to complete the project. We cooperated with each other to brainstorm, plan and organize our "company".

WHAT WERE SOME CHALLENGES THAT I FACED?

There were many challenges for us at first, but we managed to overcome them. I think one of the challenges that we had to overcome hardly was flexibility. We spent hours and hours rushing packaging our products for them to look as good as possible. We ordered materials but it arrived late so the teacher asked us to make another products. Then, it turned out that we had to offer two products to the costumers and spent many hours on it.

WHAT ARE YOUR GOALS? HOW MIGHT YOU USE WHAT YOU HAVE LEARNED?

One of my goals for this class is to learn more about business. I can work with others and trust in them in the future.
