

My Digital Foot Print.

Questions.

Question 1) how might your digital footprint affect your personal brand and future opportunities? Why is it important to be aware of one's digital footprint?

A couple of reasons you should be aware of your digital footprint is that it may affect any future job applications or applying for collage.

Another reason is that unless your account on whatever social media app or website is private this information is accessible to anyone.

Question 2) describe at least three strategies (e.g. consider passwords, cookies, security, etc.) that u can use to keep your digital footprint appropriate and safe.

A) Don't post/share things if you think you may regret posting/sharing that thing in the future

B) create uncommon passwords in order to Provent your any of your accounts and devices (social media, id for phones, your computer, etc.) from being easily hacked causing leakage of personal info.

C) make you're accounts on social media private and watch who your letting follows you.

Question 3) how you would explain the idea of "digital permanence" to anyone in your spheres of influence: other students, your family members, your teachers, etc.? Why should we care and be aware of this concept?

Digital permanence is basically how long data is stored on media and other websites.
