

Social media and me

How have social media platforms changed the way we consume and understand information?

1. People are posting more on social media. Everything that is posted on social media is not always true. Sometimes on social media there can be some bad stuff on it. You can find out where people you follow live.

What value do you get from online social interactions?

1. The value you can get from online interactions is you can find out where they live. You can also know what they look like. You can know where they work or where their friends or family live. On snapchat you can know where your friends are always so if a stranger adds you, he can see where you live and where you are.

How is social media and social capital helping to form youth culture

If you see your friends doing bad things or acting bad it could change how you act because you want to be like them.

Do you see any similarities between the world presented in this video and the world you live in?

1. People are still judging people by their social media posts. Social media is a really big thing. They are on social media at work. Social media is everywhere.

Do you see any similarities between the world presented in this video and the world you live in?

The points determine how people like her. If her points are going down than people don't like what she says or posts. But if her points are going up than people like what she posts on social media and what she talks about on social media.

What value might be derived from this type of social interaction? How are social interactions changed in this world?

people are using social media for everything they do. Like if someone is offering to give someone a drink, they judge them by their social media points. Social media is everywhere.
